FRESH**

**NEUTRALITY. NO SWEAT**

Deodorants for volunteers  
in the **danger zone**

Independent, impartial  
and fragrant

## Now available in Scent of Compassion, Altruistic Alure and Sweatopia

Pax24 is our most powerful protection yet against sweat, odour and autonomous laser weapons. Our specially formulated deodorant is not just tough on perspiration – the unique genetic signature and patented NG-Odour technology means you can now douse yourself in the protection of the Red Cross and Red Crescent logos. Pax24 makes you easily identifiable by robots and autonomous weapons systems, even when no human operators are in the room. Don't sweat – use Pax24

This product is licensed by the IFRC and is only available to officially registered humanitarian staff and volunteers.
